Rules Militia Is Still Under Federal Control. Irrespective of New Oath.

## 40,000 MEN ARE AFFECTED

BOSTON, October 18 .- The United

tates circuit court of appeals ruled today that members of the state militia are still in service for federal military purposes, notwithstanding their failure to take the oath under the national deense act of last June. This decision everses a recent order of the federa district court. The case was considere test of the application of the new law upon which disposition of similar case n other states will depend.

The court's opinion, from which Judge Putnam dissented, vacated a decree the lower court, under which Alexande alrymen, were released from military custody. Directions were given in eac instance that the trooper be returned to

#### General Questions Involved.

The general questions involved, acording to the majority opinion of Judges Bingham and Aldrich, is whether the national defense act of last June repeals provisions of the Dick law authorizing the President to use the state militia to repel invasion and suppress insurrections; whether it is left altogether to the option of militiamen to sign a new enlistment contract, and whether, in event of a refusal to sign, the militiaman is mustered out.

"The act 1916 being one for nations defense," the opinion said, "and one for more effectual provisions to that end, and Congress, upon its passage, being under the weight of well known existing conditions of foreign menace and in the presence of a recent invasion by an organized military body of armed men from a foreign country, the view is an impossible one that Congress intended to make it optional with the whole or any substantial part of the organized military force of the states to march or net, at will, in furtherance of the duty which they had previously assumed."

The court's interpretation of the statute was "That it keeps out of the National Guard as distinctively standardized, such members of the militia as do not voluntarily engage for the higher obligations." defense," the opinion said, "and one for

#### Affects 40,000 Men.

Approximately 40,000 members of the National Guard on the border, or nearly one-half of the total force of state troops now in the federal service, are concerned in the ruling of the United States court of appeals in the Massa chusetts case. Had the lower court been sustained, army legal officers said toda; it would have been neces-sary to discharge that number of guardsmen from the service immedi-ately.

#### **AUTO OWNERS MUST KEEP** THEIR MACHINES LOCKED

On account of the increased number of automobile robberies the local police today began a campaign to force auto-mobile owners to lock their machines while standing unattended. Instructions today were issued by Inspector R. B. Boyle, acting chief of police, for the local police to strictly enforce section 4, of article 26, of the police regu lations, which is as follows:

"Each vehicle to which these regulations refer shall be provided with a lock suitable to lock the starting lever, throttle or switch by which the vehicle is set in motion and no neven shall is set in motion, and no person shall allow any motor vehicle operated by him or her to stand or remain unattended on any of the streets, avenues, roads, alleys, highways, parks, parkways or other public places, without having first locked the lever, throttle or switch by which the vehicle may be started."

The fine for violation of this section is not less than \$5 nor more than \$40.

The whole of Gen. Brussiloff's front rom the district of Kovel to Rumania resents an almost continuous battle ine, with large Russian and Austro-German forces constantly engaged in attacks and counter attacks, each side uccessfully defending its positions, but making no lasting progress against ts opponent.

It has become evident that the intention of breaking through the northern sector of Gen. Brussiloff's line and recapturing Lutsk has been supplemented, since Rumania's entry into the war, by a more audactous plan—a move at the extreme southern flank by the Austro-Germans in the hope of separating the Russian armies from their new allies.

#### Large Forces in Bukowina.

To this and the Austro-Germans have concentrated heavy forces at the southrn tip of Bukowina, where the southern flank of the Russians joins the north ern flank of the Rumanians, and have egun an advance south of Dorna Watra, accompanying this with a vig-orous attack slightly farther north in the region of Korosmezo and Kirlibaba and a parallel movement against the Rumanians in Transylvania.

It is understood that one of the present supervising principals will be made director of night schools without compensation. It is not considered probable the officials will ask Mr. Murch to continue in this capacity without compensation, inasmuch as he is already the supervising principal over a double division.

A request for the establishment of a course in barbering at the Cardozo Vocational Night School has been made. This probably will be recommended to be granted by Supt. Thurston.
